PROFESSIONAL SUMMARY

Detail-oriented and spiritually driven Website Developer with a passion for creating impactful digital experiences. Proficient in HTML, CSS, JavaScript, and React.js, with hands-on experience in crafting visually appealing websites, especially those rooted in theme and values. Adept at blending creative storytelling with modern web technologies to inspire and educate diverse audiences.

EDUCATION QUALIFICATION:

Qualifying Examination	Name of the Institution	Year of Passing
Diploma In Computer Science & Engineering	Nitte Meenakshi Institute of Technology	May 2025

Website Developer & Design

- **FRONTEND:** I developed and maintained an inspirational website using **HTML, CSS, JavaScript**, focusing on responsive layouts, smooth animations, and dynamic user interactions. The platform was designed to deliver a seamless experience across devices while showcasing motivational content in a visually engaging format.
- I crafted emotionally resonant **Website** structures that incorporated spiritual motifs and thoughtful design elements to deepen user connection. This approach helped transform the website into more than just a digital space—it became a storytelling experience rooted in purpose and meaning.
- **AI VIDEO GENERATION:** I actively developed modular cinematic prompts for AI video generation, crafting mythic, spiritual, and horror-themed scenes with precise camera movement, atmospheric layering, and emotional depth. These prompts were optimized for resource efficiency and visual impact, enabling the creation of dynamic video clips that blend storytelling with ambient tension and symbolic imagery.
- **CONTENT CREATION:** To support content creation, I designed reusable templates and cinematic thumbnails that elevated YouTube branding and significantly boosted viewer engagement. These assets ensured consistency across video series while capturing attention through bold visuals and strategic layout.
- **TECHNICAL WRITING:** I collaborated closely on video scripting and narrative development for educational content, blending visual design with impactful messaging. This synergy between storytelling and design helped deliver content that was both informative and emotionally compelling.
- **PYTHON:** Additionally, I applied basic **Python** to automate simple tasks and experiment with backend logic. These efforts supported smoother workflows, basic data handling, and laid the groundwork for future scalability in my web projects.
- **FIGMA:** I used **Figma** to design intuitive, responsive website layouts and UI components, streamlining the transition from concept to code. My designs emphasized clarity, spiritual aesthetics, and user engagement, serving as a blueprint for impactful digital experiences.

Key Projects

- **Anime Hub Website:** Developed a dynamic, feature-rich platform for anime enthusiasts; integrated voice search, episode progress tracking, emoji reactions, and a sleek comment system to boost user interaction. Crafted responsive layouts with animated UI and spiritual design touches for a unique viewing experience.
- **YouTube Channel Branding Assets:** Designed high-impact thumbnails and scalable template systems to strengthen visual identity and boost viewer retention across diverse video series; optimized for consistency, engagement, and cross-platform appeal.

OTHER QUALIFICATION:

- ✓ Basic in Computer (MS Excel, Word, Power Point)

TRAININGS & CERTIFICATIONS:

- **HTML & CSS – Infosys Springboard (2025)** Completed comprehensive training in core web development principles, including semantic HTML, responsive design techniques, and modern styling practices. Gained hands-on experience building clean, accessible layouts optimized for cross-device performance, laying a strong foundation for advanced front-end development and animation workflows.
- **UI/UX Design – Infosys Springboard (2025)** Engaged in immersive, project-based learning focused on user research, wireframing, and interactive prototyping. Developed a deep understanding of usability principles and design psychology, with emphasis on creating intuitive, user-centered digital experiences. Applied these skills to real-world projects involving branding, portfolio design, and client-facing interfaces.
